About the Organizer	Since established, College of International Development and Global Agriculture (CIDGA) at China Agricultural University have been attaching great importance to agricultural training programs. Regarding national agricultural strategies as the guide, the college actively support the B&R Initiative, play a role as a bridge for international cooperation, help developing countries improve independent development ability in agriculture. CIDGA built an important platform where China and other developing countries cooperate in agriculture area. Through both bring-in and going-out approaches and multiple methods, CIDGA keep fostering agricultural leaderships along B&R countries, especially youth leaderships, management personnel and scientific talents in agriculture field. CIDGA embraces a mature management team where all members have extensive experience in international training. The college has successfully undertaken several training programs under the theme Agricultural Development Policies and Experience of China.	
Training content	1. Main training content The training content includes lectures and exchange seminars on topics such as an overview of China's national conditions, an overview of global development governance, the role and functions of think tanks in global development governance, global development governance in the agricultural field and the contributions of think tanks, the collaborative cooperation between international organizations and think tanks in global development governance, policy recommendations and actions for climate change and sustainable development, international communication of think tanks and enhancement of global influence, trends in future global development governance, and the mission and responsibility of think tanks. These contents comprehensively cover the core areas of global development governance and the key dimensions of think tank practice, building a complete knowledge system for trainees from theoretical cognition to practical application, helping them deeply grasp the pulse of global development and improve their professional literacy and ability to participate in global governance. 2. Study tour arrangements To strengthen trainees' mastery of the training knowledge, on - site visits are planned to showcase excellent practical cases of Chinese think tanks participating in global development governance. 3. About the lecturers The lecturers are from the College of International Development and Global Agriculture at China Agricultural University. They have been deeply engaged in fields such as global development governance, international agricultural cooperation, and think tank construction for decades. They are not only familiar with the cutting - edge trends and rule systems of global development governance but also able to analyze the practical role of think tanks in promoting international agricultural cooperation and addressing global food security challenges with specific cases. They will bring wonderful courses to trainees that combine theoretical height, practical depth, and an international perspective.	

	4. Others (1) Trainees need to prepare introductions to their affiliated organizations and work fields, as well as introductions to how think tanks in their countries participate in global development governance. (2) The arrangements of lectures, discussions and field visits may be adjusted according to the actual situation.
