|                                      | Address  | No. 13, Section 4, Renminnan Road, Chengdu, Sichuan province |
| About the Organizer                  | <p>Founded in 1979, Chengdu Biogas Institute of Ministry of Agriculture and Rural Affairs (BIOMA) is mainly responsible for the basic and applied research, frontier technology research, major key generic technology research, other public welfare research and the technical extension and trainings in biogas and other rural renewable energy, rural environmental treatment and the cross field of agro-ecological restoration. BIOMA has been committed to actively promoting knowledge dissemination and technology transfer in related fields through trainings, demonstration projects and cooperative research. In 1981, upon the agreement between Chinese government and UNDP, the Asia-Pacific Biogas Research and Training Center (BRTC) in Chengdu of China was established at BIOMA. In 2014, FAO designated BIOMA as “FAO Reference Center for Biogas Research and Training”. In 2021, BIOMA was titled as one of the first “China-Africa Joint Centers for Modern Agrotechnology Exchange, Demonstration &amp; Training” by the Ministry of Foreign Affairs and the Ministry of Agriculture and Rural Affairs.</p> <p>Since its establishment in 1979, BIOMA has held 199 international trainings sponsored by the Chinese government and international organizations for more than 6,000 international participants from over 130 countries. At the same time, entrusted by the Chinese government and international organizations, experts from BIOMA have conducted overseas training and demonstration projects in developing countries, actively participated in the introduction and export of agricultural technologies and products, and established long-term cooperative relations with scientific research institutions in Europe, America and other developed areas.</p> |  |
| Training content                     | <p>Ecological governance and eco-tourism development will be discussed with participants in the seminar through classroom lectures, field visits, cultural tours and other forms.</p> <p>1. Main Lectures and Contents</p> <p>(1) Basic National Conditions of China: Introduces China’s society, culture, folk customs and other major conditions, as well as the concept of a community with a shared future for mankind advocated by China and the practical measures of the Belt and Road Initiative.</p> <p>(2) Xi Jinping’s Thought on Ecological Civilization: Introduces global sustainable development and China’s ecological civilization construction, the core content, contemporary significance and practical cases of Xi Jinping’s Thought on Ecological Civilization.</p> <p>(3) Holistic Tourism Driving Green Development, Cultural-Tourism Integration for an Innovative Future - Conceptual Innovation in Building World-Class Tourism Destinations: Introduces China’s holistic tourism concept, characteristics, theoretical basis, development history, achievements, practical systems, specific requirements, and case studies.</p> <p>(4) Sichuan’s Practice in Developing Eco-Agritourism Through Green Development:</p>  |  |

|  |   |
|--|---|
|  | <p>Introduces the functions, market sources, product categories, development concepts and directions of Sichuan's leisure agriculture.</p> <p>(5) Planning and Practice Cases of Rural Tourism in China: Introduces the development background, planning principles, core planning elements, and practical cases of China's rural tourism.</p> <p>(6) Eco-Tourism Development in China with Case Sharing: Introduces China's eco-tourism development, including standards, types, and case examples.</p> <p>(7) Overview and Business Models of China's Homestay Industry: Introduces the evolution, current status, challenges, and unique characteristics of China's tourism accommodation sector.</p> <p>(8) Standardization vs. Non-Standardization in China's Tourism Accommodation Industry: Introduces the development trajectory of China's tourism lodging industry and the distinction/integration between standardized and non-standardized approaches.</p> <p>(9) Current Status of Rural Tourism in China and Poverty Alleviation Through Agri-Tourism Integration: Introduces the development history, main types, and current situation of China's rural tourism.</p> <p>(10) Governance and Restoration of Agricultural Ecosystems: Introduces measures and methods for agricultural ecological management including pesticide/fertilizer reduction, plastic film pollution control, heavy metal soil remediation, livestock waste recycling, and agricultural water pollution treatment.</p> <p>(11) Approaches to Urban Ecological Restoration with Case Analysis: Introduces Chengdu's Living Water Park as an example, demonstrates how to construct urban ecological restoration systems through anaerobic ponds and constructed wetlands, achieving integrated urban environmental management, ecological restoration, and landscape design.</p> <p>2. Field visits and cultural tours</p> <p>Participants will be arranged to visit ancient town eco-tourism zone, ecological tourism in ancient towns, ecological environment restoration project and etc. They will also visit Chengdu Research Base of Giant Panda Breeding and Dujiangyan Water Conservancy Project in Sichuan province.</p> <p>3. On-site discussions</p> <p>Discussions on Ecological governance and eco-tourism and exchange meeting on seminar summary will be arranged.</p> <p>Note: There might be slight changes of cities to visit according to actual situations.</p> |
