About the Organizer	The International, Hong Kong and Macau Training Center is mainly engaged in organizing elite individuals from various sectors of society, including international and Hong Kong Macau civil servants, political parties, governments, parliaments, and think tanks, to come to China for training. From 2000 to now, it has held more than 520 international training courses with more than 13,000 trainees, covering 164 countries and regions in Asia, Europe, Africa, America and Oceania. Among them, the topic of “public administration management” has become the international training brand of our center. We successfully held the seminar for senior civil servants from Australia and New Zealand, ministerial-level officials from Cuba, Algeria, Nepal, Sudan, multilateral workshops from Asia, Latin America, Africa and Central and Eastern Europe, many teacher training courses in Russia, Cuba, Ethiopia, Tanzania, Mexico, etc., as well as many diplomat training courses in Indonesia, Bangladesh, etc. There are 12 teaching and research departments in our academy: Public Administration Teaching and Research Department, Economics Teaching and Research Department, Politics and Law Teaching and Research Department, Social Ecological Civilization Teaching and Research Department, Literature and History Teaching and Research Department, International Strategic Research Institute, and Emergency Management Training Center and etc. We have more than 350 full-time teachers with deputy senior titles or above, among which more than 50 teachers can teach in English. In addition, we hire experts from various fields to give lectures in our academy, including experts and scholars from Chinese Academies of Social Sciences, well-known universities, and government leading cadres and senior managers of enterprise operation. Also, we invite comrades who worked in various overseas institutions of China to give special lectures in our academy. We have cooperated deeply with units such as China International Communications Group, Translators Association of China, Beijing Foreign Studies University, Peking University, Beijing Language and Culture University, Renmin University of China, and University of International Business and Economics to hire high-quality translators for many years. Daily translation in minor languages is also completed by outstanding participants from colleges and universities.	
Training content	Experts and scholars in the field of public management will be invited to give lectures to the participants, and various teaching methods such as classroom lectures, on-site teaching, cultural experience, visit, exchange and discussion will be used comprehensively. The training mainly covers China's development, China's national governance, China's economic development and reform and opening up, China's public policy formulation, etc. 1. China's development (summary of China's national conditions): introduce the general situation of China's politics, economy, history and culture, so as to enable the participants to have a preliminary understanding of China and provide theoretical basis for future study and exchange. 2. Xi Jinping's thought of socialism with Chinese characteristics in the new era: introduce the background, ideological connotation, historical status and world significance of Xi Jinping's thought of socialism with Chinese characteristics in the new era. Explain the basic connotation	

and logical structure of “Ten Clarifications” and “Fourteen Adherence”, and the historical achievements and changes of socialism with Chinese characteristics since entering the new era. Interpret the scientific answer of Xi Jinping's socialism with Chinese characteristics in the new era to the question of China, the question of the world, the question of the people and the question of the times.

3. Modernization of national governance system and governance capacity: introduce the structure and operation mode of Chinese government; focus on introducing the experience and practice of how the Chinese government under the leadership of the Communist Party of China can promote the modernization of national governance system and governance capacity in reform, development and stability, economic and social construction and diplomacy.

4. Co-constructing high-quality development of the “Belt and Road”: introduce the historical inheritance and era background of the “Belt and Road” initiative, the basic principles, operating mechanism, achievements and development prospects of the “Belt and Road” initiative. Focus on the cooperation and practical experience of the countries and regions where the participants are located participating in the “Belt and Road” initiative.

5. Building a community with a shared future for mankind: introduce the concept and connotation of the community with a shared future for mankind, as well as the basic principles, values and action path of the community with a shared future for mankind. Explain China's experience and practice in building a community with a shared future for mankind, and explore China's role and responsibilities in global governance. Explore how countries in the world can strengthen cooperation to jointly address global challenges and promote the common prosperity and development of mankind.

6. China's public policy-making: introduce the characteristics and implications of public policy-making process, influencing factors and principles of public policy-making in China, as well as the main public policies in China under the background of reform.

7. Chinese government performance management: briefly introduce the experience of government performance management in China from the aspects of the characteristics of China's political system, leading government performance budget, overall performance management of local government, assessment of leading group and leading cadres, performance management of civil servants and evaluation of social satisfaction.

8. China's economic development and reform and opening-up: introduce the process, characteristics and trends of China's economic development since the reform and opening-up. Explain the achievements of China's economic development in the past 40 years of reform and opening up and its impact on the world.

9. Civilized exchange and mutual learning: deepen cultural and cultural exchanges and learn from each other through the discussion and exchange of Chinese experts and participants. Chinese experts will introduce the origin, present and future of Chinese civilization. Participant delegates share the origin and characteristics of civilization and cultural exchanges of their countries with foreign countries.
