

ANNEX II

PROPOSED ACTION PLAN

An expected outcome of the International Course “Soil Geology Training Program for Non-Specialist Engineers” is the formulation and presentation, by each participant, of an Action Plan. This action is related to the application of the acquired knowledge can be implemented in the country of origin. This is in order to present it to its management bodies and promote or assume its implementation upon completion of the training program.

The organizing entities of the Course, AGCID and the University of Chile, may carry out a subsequent follow-up on the development of the Action Plans.

The aforementioned action will be proposed as an initial idea and **must be presented as an application requirement.**

Subsequently, during the International Course, instructions, procedures, and the necessary scientific background to complete the plan will be provided. As part of the course evaluation, the plan must be presented to the academics organizing the course, who will provide feedback and final suggestions.

INSTRUCTIONS

Develop the following points in a Word or PDF document of no more than 5 pages, including texts and tables.

1. Participant's name.
2. Country and City of Residence.
3. Name of the institution where you work and the position you hold.
4. Indicate the most relevant topics of the Course for you.
5. Specify how the knowledge acquired in this International Course will improve your professional development in your country and what specific actions you expect to take to achieve this.
