About the Organizer	The Academy for International Business Officials (AIBO) is an educational and training institution directly under the Ministry of Commerce of the People's Republic of China. Established		

	<p>in 1980, AIBO is located in Changping District, Beijing, about 30 kilometers from Beijing Capital International Airport. It boasts comprehensive infrastructure to provide services such as accommodation, catering, training and meetings for trainees.</p> <p>One of the main responsibilities of AIBO is to implement human resources development and cooperation projects, especially training courses for officials. The Academy serves as the main base for China's foreign aid training, offering both off-line and on-line training in China and overseas.</p> <p>Backed by the Ministry of Commerce and in close cooperation with China's top think tanks, research institutes and universities, AIBO brings together a large number of China's top experts and scholars to provide intellectual support for foreign aid training. It has developed a number of high-quality foreign aid training projects in the fields of trade and investment, international economic cooperation, governance and public management, which have proved to be fruitful.</p> <p>Since 1998, AIBO has successfully held over 2,500 training sessions for officials from developing countries (including 147 ministerial seminars), benefiting nearly 84,000 trainees from other developing countries around the world.</p> <p>AIBO will adhere to the guidance of Xi Jinping Thought on Socialism with Chinese Characteristics for a New Era, and take the important concepts, including a community with a shared future for mankind, pursuing the greater good and shared interests, and sincerity, real results, amity, good faith, mutual benefit and inclusiveness, as strategic guidance and fundamental principles to be followed. It will facilitate the joint efforts in implementing major initiatives such as the Belt and Road Initiative (BRI) and the Global Development Initiative (GDI), and continue to help developing countries accelerate their development by sharing China's experience and programs.</p>
<p>About the Seminar</p>	<p>Background: General Secretary Xi Jinping pointed out: "We adhere to the vision of global governance featuring extensive consultation and joint contribution for shared benefits, and lead the reform of global governance with the philosophy of equity, justice, openness and inclusiveness." At present, the global economic recovery is sluggish, geopolitical tensions are intensifying, and the development gap is widening. Since economic governance, trust and development deficits remain prominent and multilateral cooperation mechanisms are facing uncertainties, the global governance system is in urgent need of transformation toward greater balance, inclusiveness and efficiency. Against this backdrop, China is willing to propel the global economic governance system to better reflect the evolution of the international landscape and safeguards people's right to participating, developing and speaking in developing countries, with the high-quality joint construction of the Belt and Road as the platform.</p> <p>China plans and holds this seminar to share experiences and practices in economic governance, open development and institutional construction with all parties. We hope to deepen the global partnership on interconnectivity, pool synergies for development, and enhance the economic governance and risk response capabilities of the Belt-and-Road countries, jointly realizing modernization.</p> <p>Purpose: The Seminar aims to share experiences and deepen friendship through mutual learning and exchanges, and build a cooperation platform between China and the Belt-and-Road countries in economy and technology. Specifically, we can deepen technological coordination, industrial alignment and mutual learning, by which, we will narrow the development gap and alleviate global poverty, enable people of all countries to equally share the dividends of global economic growth, and realize common development and prosperity.</p> <p>Content: The seminar lectures will mainly cover: an overview of China's national conditions,</p>

	<p>the governance philosophy of Chinese leaders, the Belt and Road Initiative and its implementation measures, the current situation and potential of China's economic and trade cooperation, global governance and development cooperation, as well as China's digital economic governance: rules and experiences.</p> <p>Methods: Invite Chinese experts to deliver thematic lectures by topics; organize seminar exchanges between participants and experts as well as among participants; arrange for participants to conduct on-site visits and exchanges to institutions and enterprises engaged in economic cooperation in Beijing and other cities.</p> <p>(The above is the preliminary schedule, which may be adjusted according to the actual situation, and the final version will be provided upon arrival in China.)</p>
